

# A SPECIAL GROUP!

## Conversation with Stuart Hosie | Pediatric Surgeon

---

[Pediatric surgeon, Stuart Hosie, about the CTO mission in Georgia]

[Stuart Hosie, Pediatric Surgeon, Munich, Germany]

My name is Stuart Hosie. I live and I work in Munich in Germany. I have been part of the CTO for almost 10 years. There are many special things about CTO. It is an interprofessional group comprising surgeons, comprising anesthetists, nurses, coordinators, and volunteers from different parts of the world. And they are united by the enthusiasm of treating patients with colorectal anomalies. The other special thing is that we cooperate with local caregivers. So, we organize courses for nurses and for local surgeons, and we treat the patients together and we operate on them together. Therefore, we expand our network worldwide, we gain friends, and we are able to increase not only the horizon of the local surgeons, but our own horizon as well.
