

MARC LEVITT ABOUT THE CTO MISSION IN TBILISI, GEORGIA

Conversation with Dr. Marc Levitt | Pediatric Surgeon

[Pediatric surgeon, Marc Levitt, about the CTO mission in Georgia]

[Marc Levitt, Pediatric Surgeon, CTO Founder, Washington D.C., USA]

Colorectal Team Overseas, CTO, Tbilisi, Georgia, January 2023. We are nearing the end of another successful and wonderful trip, and I have to say my main observation from this trip is we had a very diverse group from all over the world, and different talents. And everyone came together, and everyone gelled as one team. No stone was left unturned. Everyone recognized that they had a role, played a role, and everything came together so incredibly beautifully. We helped 12 children, we saw 20 patients in a clinic, we taught the nurses, the OR [operating room] staff, the anesthesiologist, and the local surgeons. And everyone just had a wonderful experience.
