

# TEACHING LOCAL SURGEONS

## Video message by Dr. Alejandra Vilanova | Pediatric Surgeon

---

[Pediatric surgeon, Alejandra Vilanova-Sanchez, about the CTO mission in Georgia]

[Alejandra Vilanova-Sanchez, Pediatric Surgeon, Madrid, Spain]

My name is Alejandra Vilanova-Sanchez. I'm a pediatric surgeon from Madrid, Spain. One of the most important things that we do with CTO is the teaching part. We teach this local surgeon how to take care of patients with colorectal conditions, and also the nursing team. That way, our impact can be multiplied by a thousand. They will take care of future patients, they will teach future residents, and future surgeons. I see that like a domino effect.
