

WORKING AS A TEAM!

Video message by Dr. Martin Lacher | Pediatric Surgeon

[Pediatric surgeon, Martin Lacher, about the CTO mission in Georgia]

[Martin Lacher, Pediatric Surgeon, Leipzig, Germany]

My name is Martin Lacher and I'm a pediatric surgeon from Germany. I've been a member of CTO for the last 10 years. And in fact, I remember every single mission we did because they are all unique. Including which malformation we saw, and what we did to help the children, how we worked as a team with colleagues from all over the world, and how we interacted with the patients and families with different cultural backgrounds in different countries.
